KDM1A Human siRNA Oligo Duplex (Locus ID 23028)

Product data:

Product Type: siRNA Oligo Duplexes

HPLC purified **Purity:**

Quality Control: Tested by ESI-MS

Available with shipment **Sequences:**

Stability: One year from date of shipment when stored at -20°C.

of transfections: Approximately 330 transfections/2nmol in 24-well plate under optimized conditions (final

conc. 10 nM).

Single siRNA duplex (10nmol) can be ordered. Note: RefSeq: NM 001009999, NM 015013, NM 001363654

UniProt ID: 060341

Synonyms: AOF2; BHC110; CPRF; KDM1; LSD1

Components: KDM1A (Human) - 3 unique 27mer siRNA duplexes - 2 nmol each (Locus ID 23028)

Included - SR30004, Trilencer-27 Universal Scrambled Negative Control siRNA Duplex - 2 nmol

Included - SR30005, RNAse free siRNA Duplex Resuspension Buffer - 2 ml

This gene encodes a nuclear protein containing a SWIRM domain, a FAD-binding motif, and **Summary:**

> an amine oxidase domain. This protein is a component of several histone deacetylase complexes, though it silences genes by functioning as a histone demethylase. Alternative

splicing results in multiple transcript variants. [provided by RefSeq, Apr 2009]

OriGene guarantees that at least two of the three Dicer-Substrate duplexes in the kit will **Performance Guaranteed:**

provide at least 70% or more knockdown of the target mRNA when used at 10 nM

concentration by quantitative RT-PCR when the TYE-563 fluorescent transfection control duplex (cat# SR30002) indicates that >90% of the cells have been transfected and the HPRT

positive control (cat# SR30003) provides 90% knockdown efficiency.

For non-conforming siRNA, requests for replacement product must be made within ninety (90) days from the date of delivery of the siRNA kit. To arrange for a free replacement with newly designed duplexes, please contact Technical Services at techsupport@origene.com. Please provide your data indicating the transfection efficiency and measurement of gene expression knockdown compared to the scrambled siRNA control (quantitative RT-PCR data

required).
