<th><strong>Name:</strong> Goat Anti-Mouse IgG Secondary Antibody</th>
<th><strong>Catalog:</strong> TA130001</th>
</tr>
</thead>
</table>

**Target:** Mouse IgG  
**Immunogen:** Mouse IgG, whole molecule  
**Conjugation:** Unconjugated  
**Concentration:**  
**Host Species:** Goat  
**IsoType:** IgG  
**Application:** WB, IHC, IF/ICC, ELISA  
**Form:** Lyophilized  
**Buffer:** Lyophilized with 1% sodium acetate  
**Purification:** This antibody was purified from antiserum by immunoaffinity chromatography which removes essentially all goat serum proteins, except the specific antibody for mouse IgG.  
**Storage:** At -20°C for 2 years. Avoid repeated freezing and thawing.  

**Note:**  
* More validation images may be available on our website: http://www.origene.com/secondary_antibody/TA130001.aspx
