

Product datasheet for TA302107

WIF1 Rabbit Polyclonal Antibody

Product data:

Product Type: Primary Antibodies

Applications: IHC, WB

Recommended Dilution: WB: 1:1000, IHC: 1:10~50

Reactivity: Human Rabbit

Isotype: lg

Clonality: Polyclonal

Immunogen: This WIF1 antibody is generated from rabbits immunized with a KLH conjugated synthetic

peptide between 347-376 amino acids from the C-terminal region of human WIF1.

Formulation: Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide.

Concentration: lot specific

Purification: This antibody is purified through a protein A column, followed by peptide affinity purification.

Conjugation: Unconjugated

Storage: Store at -20°C as received.

Stability: Stable for 12 months from date of receipt.

Predicted Protein Size: 41528 Da

Gene Name: WNT inhibitory factor 1

Database Link: NP 009122

Entrez Gene 11197 Human

Q9Y5W5

Background: WNT proteins are extracellular signaling molecules involved in the control of embryonic

development. WIF1 is a secreted protein, which binds WNT proteins and inhibits their

activities. This protein contains a WNT inhibitory factor (WIF) domain and 5 epidermal growth factor (EGF)-like domains. It may be involved in mesoderm segmentation. This protein is

found to be present in fish, amphibia and mammals.

Synonyms: WIF-1

Protein Families: Cancer stem cells, Druggable Genome, ES Cell Differentiation/IPS, Secreted Protein, Stem cell

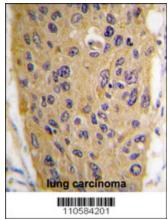

relevant signaling - Wnt Signaling pathway

Protein Pathways: Wnt signaling pathway

Product images:

Western blot analysis of WIF1 (arrow) using rabbit polyclonal WIF1 (C-term) Antibody (Cat.#TA302107). 293 cell lysates (2 ug/lane) either nontransfected (Lane 1) or transiently transfected with the WIF1 gene (Lane 2) (Origene Technologies).

Formalin-fixed and paraffin-embedded human lung carcinoma tissue reacted with WIF1 Antibody (C-term) (Cat.#TA302107), which was peroxidase-conjugated to the secondary antibody, followed by DAB staining. This data demonstrates the use of this antibody for immunohistochemistry; clinical relevance has not been evaluated.
