

# Product datasheet for TA302227

## E Cadherin (CDH1) Rabbit Polyclonal Antibody

### **Product data:**

#### **Product Type: Primary Antibodies Applications:** FC, WB Recommended Dilution: WB: 1:1000, FC: 1:10~50 **Reactivity:** Human Rabbit Host: Isotype: lg Polyclonal **Clonality:** Immunogen: This E Cadherin (CDH1) antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 160-189 amino acids from the N-terminal region of human E Cadherin (CDH1). Formulation: Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. **Concentration:** lot specific Purification: This antibody is prepared by Saturated Ammonium Sulfate (SAS) precipitation followed by dialysis against PBS. **Conjugation:** Unconjugated Store at -20°C as received. Storage: Stability: Stable for 12 months from date of receipt. Predicted Protein Size: 97456 Da Gene Name: cadherin 1 Database Link: NP 004351 Entrez Gene 999 Human P12830

	E Cadherin (CDH1) Rabbit Polyclonal Antibody – TA302227
Background:	CDH1 is a classical cadherin from the cadherin superfamily. This protein is a calcium dependent cell-cell adhesion glycoprotein comprised of five extracellular cadherin repeats, a transmembrane region and a highly conserved cytoplasmic tail. Mutations are correlated with gastric, breast, colorectal, thyroid and ovarian cancer. Loss of function is thought to contribute to progression in cancer by increasing proliferation, invasion, and/or metastasis. The ectodomain of this protein mediates bacterial adhesion to mammalian cells and the cytoplasmic domain is required for internalization.
Synonyms:	Arc-1; CD324; CDHE; ECAD; LCAM; UVO
Protein Families:	Druggable Genome, ES Cell Differentiation/IPS, Transmembrane
Protein Pathway	<b>s:</b> Adherens junction, Bladder cancer, Cell adhesion molecules (CAMs), Endometrial cancer, Melanoma, Pathogenic Escherichia coli infection, Pathways in cancer, Thyroid cancer
