

Product datasheet for **TA306022**

APRIL (TNFSF13) Rabbit Polyclonal Antibody

Product data:

Product Type:	Primary Antibodies
Applications:	WB
Recommended Dilution:	WB: 5 - 10 ug/mL
Reactivity:	Human
Host:	Rabbit
Isotype:	IgG
Clonality:	Polyclonal
Immunogen:	APRIL antibody was raised against a synthetic peptide corresponding to amino acids near the center of human APRIL.
Formulation:	PBS containing 0.02% sodium azide.
Concentration:	1ug/ul
Purification:	Affinity chromatography purified via peptide column
Conjugation:	Unconjugated
Storage:	Store at -20°C as received.
Stability:	Stable for 12 months from date of receipt.
Gene Name:	tumor necrosis factor superfamily member 13
Database Link:	NP_003799 Entrez Gene 8741 Human O75888
Background:	Members in the TNF superfamily regulate immune responses and induce apoptosis. A novel member in the TNF family was recently identified by several groups and designated APRIL (for a proliferation-inducing ligand), TALL-2 (for TNF- and ApoL-related Leukocyte-expressed Ligand 2), and TRDL-1alpha (for TNF related death ligand 1a) in human and mouse (1-4). Two receptors for APRIL were recently identified and designated TACI and BCMA (5-7). APRIL stimulates B and T cell proliferation, triggers humoral immune responses, activates NF-kappaB, and induces cell death (1-7). APRIL and its close relative of BlyS and their receptors BCMA and TACI are involved in diseases of autoimmunity and cancer (8,9).
Synonyms:	APRIL; CD256; PRO715; TALL-2; TALL2; TNLG7B; TRDL-1; UNQ383; ZTNF2
