

Product datasheet for TA306823

TMEM214 Rabbit Polyclonal Antibody

Product data:

Product Type: Primary Antibodies

Applications: WB

Recommended Dilution: WB: 1 - 2 ug/mL

Reactivity: Human, Mouse, Rat

Host: Rabbit Isotype: IgG

Clonality: Polyclonal

Immunogen: TMEM214 antibody was raised against a 17 amino acid peptide near the center of human

TMEM214.

Formulation: PBS containing 0.02% sodium azide.

Concentration: 1ug/ul

Purification: Affinity chromatography purified via peptide column

Conjugation: Unconjugated

Storage: Store at -20°C as received.

Stability: Stable for 12 months from date of receipt.

Gene Name: transmembrane protein 214

Database Link: NP 060197

Entrez Gene 54867 Human

Q6NUQ4

Background: Transmembrane protein 214 (TMEM214) is a 77kD membrane protein which is widely

expressed at high level. The gene encoding this protein maps to chromosome 2, at 2p23.3 TMEM214 interacts with LSM1, an SM-like protein, forming a stable heteromer present in tri-

snRNP particles, which are important for pre-mRNA splicing. The detailed function of

TMEM214 is still unknown, but a recent study showed that TMEM214 may be used to explore the contribution of human host factors of some infectious diseases such as Dengue fever,

West Nile fever and yellow fever. Multiple isoforms of TMEM214 are known to exist.

Synonyms: FLJ20254; FLJ39682
