# Product datasheet for TA313312

### Cytochrome P450 2A6 (CYP2A6) Rabbit Polyclonal Antibody

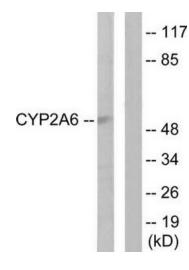

#### **Product data:**

| Product Type:         | Primary Antibodies                                                                                                                 |
|-----------------------|------------------------------------------------------------------------------------------------------------------------------------|
| Applications:         | WB                                                                                                                                 |
| Recommended Dilution: | WB: 1:500~1:3000, ELISA: 1:20000                                                                                                   |
| Reactivity:           | Human                                                                                                                              |
| Host:                 | Rabbit                                                                                                                             |
| lsotype:              | lgG                                                                                                                                |
| Clonality:            | Polyclonal                                                                                                                         |
| Immunogen:            | The antiserum was produced against synthesized peptide derived from N-terminal of human<br>Cytochrome P450 2A6.                    |
| Formulation:          | Phosphate buffered saline (without Mg2+ and Ca2+), pH 7.4, 150mM NaCl, 0.02% sodium<br>azide and 50% glycerol.                     |
| Concentration:        | lot specific                                                                                                                       |
| Purification:         | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.              |
| Conjugation:          | Unconjugated                                                                                                                       |
| Storage:              | Store at -20°C as received.                                                                                                        |
| Stability:            | Stable for 12 months from date of receipt.                                                                                         |
| Gene Name:            | cytochrome P450 family 2 subfamily A member 6                                                                                      |
| Database Link:        | <u>NP_000753</u><br><u>Entrez Gene 1548 Human</u><br><u>P11509</u>                                                                 |
| Synonyms:             | CPA6; CYP2A; CYP2A3; CYPIIA6; P450C2A; P450PB                                                                                      |
| Note:                 | Cytochrome P450 2A6 antibody detects endogenous levels of total Cytochrome P450 2A6<br>protein.                                    |
| Protein Families:     | Druggable Genome, P450, Transmembrane                                                                                              |
| Protein Pathways:     | Caffeine metabolism, Drug metabolism - cytochrome P450, Drug metabolism - other<br>enzymes, Metabolic pathways, Retinol metabolism |
