## Product datasheet for TA323580

#### Sodium Potassium ATPase (ATP1A1) Rabbit Polyclonal Antibody

#### **Product data:**

Product Type:	Primary Antibodies
Applications:	IHC
Recommended Dilution:	IHC: 25-100 Positive control: Human brain Predicted cell location: Cytoplasm
Reactivity:	Human, Mouse, Rat
Host:	Rabbit
lsotype:	lgG
Clonality:	Polyclonal
Immunogen:	Synthetic peptide corresponding to a region derived from 897-911 amino acids of human ATPase, Na+/K+ transporting, alpha 1 polypeptide
Formulation:	PBS pH7.3, 0.05% NaN3, 50% glycerol
Concentration:	lot specific
Purification:	Antigen affinity purification
Conjugation:	Unconjugated
Storage:	Store at -20°C as received.
Stability:	Stable for 12 months from date of receipt.
Gene Name:	ATPase Na+/K+ transporting subunit alpha 1
Database Link:	<u>NP_000692</u> <u>Entrez Gene 11928 MouseEntrez Gene 24211 RatEntrez Gene 476 Human</u> <u>P05023</u>

This product is to be used for laboratory only. Not for diagnostic or therapeutic use. ©2022 OriGene Technologies, Inc., 9620 Medical Center Drive, Ste 200, Rockville, MD 20850, US

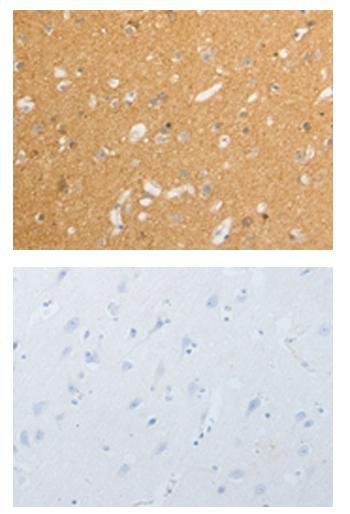

### Sodium Potassium ATPase (ATP1A1) Rabbit Polyclonal Antibody – TA323580

Background:	The protein encoded by this gene belongs to the family of P-type cation transport ATPases; and to the subfamily of Na+/K+ -ATPases. Na+/K+ -ATPase is an integral membrane protein responsible for establishing and maintaining the electrochemical gradients of Na and K ions across the plasma membrane. These gradients are essential for osmoregulation; for sodium- coupled transport of a variety of organic and inorganic molecules; and for electrical excitability of nerve and muscle. This enzyme is composed of two subunits; a large catalytic subunit (alpha) and a smaller glycoprotein subunit (beta). The catalytic subunit of Na+/K+ - ATPase is encoded by multiple genes. This gene encodes an alpha 1 subunit. Multiple transcript variants encoding different isoforms have been found for this gene.
Synonyms:	MGC3285; MGC51750
Protein Families:	Druggable Genome, Transmembrane

Protein Pathways:

# Cardiac muscle contraction
