# Product datasheet for TA325328

### **CDC25A Rabbit Polyclonal Antibody**

#### **Product data:**

| Product Type:         | Primary Antibodies  |
|-----------------------|---|
| Applications:         | IHC, WB   |
| Recommended Dilution: | WB: 1:500-1:2000; IHC: 1:50-1:200   |
| Reactivity:           | Human, Mouse, Rat   |
| Modifications:        | Phospho-specific  |
| Host:                 | Rabbit  |
| lsotype:              | lgG   |
| Clonality:            | Polyclonal  |
| Immunogen:            | The antiserum was produced against a synthesized A synthesized peptide derived from human CDC25A around the phosphorylation site of Sersine 75. |
| Formulation:          | Rabbit lgG in phosphate buffered saline , pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol.  |
| Concentration:        | lot specific  |
| Purification:         | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific peptide.                             |
| Conjugation:          | Unconjugated  |
| Storage:              | Store at -20°C as received.   |
| Stability:            | Stable for 12 months from date of receipt.  |
| Gene Name:            | cell division cycle 25A   |
| Database Link:        | <u>NP_001780</u><br><u>Entrez Gene 12530 MouseEntrez Gene 171102 RatEntrez Gene 993 Human</u><br><u>P30304</u>                                  |

## **CDC25A Rabbit Polyclonal Antibody – TA325328**

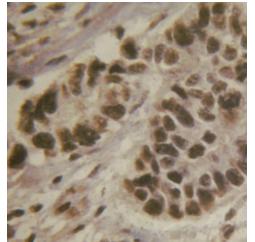

| CDC25A is a member of the CDC25 family of phosphatases. CDC25A is required for                 |
|--|
| progression from G1 to the S phase of the cell cycle. It activates the cyclin-dependent kinase |
| CDC2 by removing two phosphate groups. CDC25A is specifically degraded in response to          |
| DNA damage, which prevents cells with chromosomal abnormalities from progressing               |
| through cell division. CDC25A is an oncogene, although its exact role in oncogenesis has not   |
| been demonstrated. Two transcript variants encoding different isoforms have been found for     |
| this gene.   |
|  |

| Synonyms:         | CDC25A2   |
|-------------------|---|
| Protein Families: | Druggable Genome, Phosphatase                       |
| Protein Pathways: | Cell cycle, Progesterone-mediated oocyte maturation |
