

Product datasheet for TA327000

Carbonic Anhydrase III (CA3) Rabbit Polyclonal Antibody

Product data:

Product Type: Primary Antibodies Applications: IHC, WB Recommended Dilution: WB 1:500 - 1:2000 **Reactivity:** Mouse, Rat Host: Rabbit Isotype: lgG **Clonality:** Polyclonal Immunogen: Recombinant protein of human CA3 Formulation: Store at -20C or -80C. Avoid freeze / thaw cycles. Buffer: PBS with 0.02% sodium azide, 50% glycerol, pH7.3 Concentration: lot specific **Purification:** Affinity purification **Conjugation:** Unconjugated Store at -20°C as received. Storage: Stability: Stable for 12 months from date of receipt. Gene Name: carbonic anhydrase 3 Database Link: NP 005172 Entrez Gene 761 Human P07451 Carbonic anhydrase III (CAIII) is a member of a multigene family (at least six separate genes Background: are known) that encodes carbonic anhydrase isozymes. These carbonic anhydrases are a class of metalloenzymes that catalyze the reversible hydration of carbon dioxide and are differentially expressed in a number of cell types. The expression of the CA3 gene is strictly tissue specific and present at high levels in skeletal muscle and much lower levels in cardiac and smooth muscle. A proportion of carriers of Duchenne muscle dystrophy have a higher CA3 level than normal. The gene spans 10.3 kb and contains seven exons and six introns. [provided by RefSeq, Oct 2008] CAIII; Car3 Synonyms:
