

Product datasheet for TA327177

Caspase-6 (CASP6) Rabbit Polyclonal Antibody

Product data:

Product Type: Primary Antibodies

Applications: WB

Reactivity: WB: 1:500-1:2000 Human, Mouse

Host: Rabbit Isotype: IgG

Clonality: Polyclonal

Immunogen: Recombinant protein of human CASP6

Formulation: Store at -20C or -80C. Avoid freeze / thaw cycles. Buffer: PBS with 0.02% sodium azide, 50%

glycerol, pH7.3

Concentration: lot specific

Purification: Affinity purification

Conjugation: Unconjugated

Storage: Store at -20°C as received.

Stability: Stable for 12 months from date of receipt.

Gene Name: caspase 6

Database Link: NP 001217

Entrez Gene 12368 MouseEntrez Gene 839 Human

P55212

Background: Caspase-6 (Mch2) is one of the major executioner caspases functioning in cellular apoptotic

processes. Upon apoptotic stimulation, initiator caspases such as caspase-9 are cleaved and

activated. The activated upstream caspases further process downstream executioner caspases, such as caspase-3 and caspase-6, by cleaving them into large and small subunits, thereby initiating a caspase cascade leading to apoptosis. One of the major targets for caspase-6 is the membrane associated protein lamin A. The cleavage of this protein causes

cell membrane malfunction, membrane blebbing and eventual cell death.

Synonyms: MCH2

Protein Families: Druggable Genome, Protease, Stem cell - Pluripotency
