

Product datasheet for TA327266S

CD51 (ITGAV) Rabbit Polyclonal Antibody

Product data:

Product Type: Primary Antibodies

Applications: IHC, IP, WB

Recommended Dilution: WB: 1:500-1:2000

Reactivity: Human, Mouse, Rat

Host: Rabbit

Isotype: IgG

Clonality: Polyclonal

Immunogen: A synthetic peptide of human ITGAV

Formulation: PBS with 0.09% Sodium azide,50% glycerol,pH7.3.

Concentration: lot specific

Purification: Affinity purification

Conjugation: Unconjugated

Storage: Store at -20°C as received.

Stability: Stable for 12 months from date of receipt.

Gene Name: integrin subunit alpha V

Database Link: NP 002201

Entrez Gene 16410 MouseEntrez Gene 296456 RatEntrez Gene 3685 Human

P06756

Background: Integrins are a/β heterodimeric cell surface receptors that play a pivotal role in cell adhesion

and migration, as well as in growth and survival. The integrin family contains at least 18 a and 8 β subunits that form 24 known integrins with distinct tissue distribution and overlaping ligand specificities . Integrins not only transmit signals to cells in response to the extracellular environment (outside-in signaling), but also sense intracellular cues to alter their interaction with extracellular environment (inside-out signaling). Several aV subfamily members, including aV β 3, aV β 5, aV β 1, are highly expressed in active endothelial cells and cancer cells where they play a critical role in angiogenesis and tumor metastasis. Therefore, interest has focused on

aV integrin as a key therapeutic target in the treatment of cancer.

Synonyms: CD51; MSK8; VNRA; VTNR
