

Product datasheet for TA327303

CYP1A1 Rabbit Polyclonal Antibody

Product data:

Product Type: Primary Antibodies

ICC/IF, WB **Applications:**

Recommended Dilution: WB: 1:500-1:2000 Reactivity: Human, Mouse, Rat

Host: Rabbit Isotype: lgG

Clonality: Polyclonal

Immunogen: Recombinant protein of human CYP1A1

Formulation: Store at -20C or -80C. Avoid freeze / thaw cycles. Buffer: PBS with 0.02% sodium azide, 50%

glycerol, pH7.3

Concentration: lot specific

Purification: Affinity purification

Conjugation: Unconjugated

Store at -20°C as received. Storage:

Stability: Stable for 12 months from date of receipt.

Gene Name: cytochrome P450 family 1 subfamily A member 1

Database Link: NP 000490

P04798

Background: This gene, CYP1A1, encodes a member of the cytochrome P450 superfamily of enzymes. The

> cytochrome P450 proteins are monooxygenases which catalyze many reactions involved in drug metabolism and synthesis of cholesterol, steroids and other lipids. This protein localizes to the endoplasmic reticulum and its expression is induced by some polycyclic aromatic

> hydrocarbons (PAHs), some of which are found in cigarette smoke. The enzymes endogenous substrate is unknown; however, it is able to metabolize some PAHs to carcinogenic

> intermediates. The gene has been associated with lung cancer risk. A related family member,

CYP1A2, is located approximately 25 kb away from CYP1A1 on chromosome 15.
