Product datasheet for TA332543S

GJA4 Rabbit Polyclonal Antibody

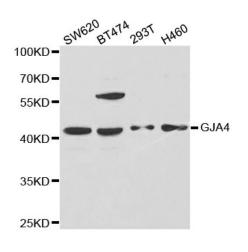

Product data:

Applications:WBRecommended DilutionWB 1:500-1:2000Reactivity:HumanHost:RabbitIsotype:IgGClonality:PolyclonalImmunogen:Recombinant protein of human GJA4Formulation:Store at -20°C (regular) and -80°C (long term). Avoid freeze / thaw cycles. Buffer: PBS with 0.02% sodium azide, 50% glycerol, pH7.3.Concentration:Iot specificPurification:NoronjugatedConjugation:UnconjugatedStore at -20°C as received.Stability:Stable for 12 months from date of receipt.Predicted Protein Size:37 kDaGene Name:ga junction protein alpha 4Patabase Link:MP 002051 Entrez Gene ZOTI Human P3212Background:This gene encodes a member of the connexin gene family. The encoded protein is a rovide a route for the diffusion of low molecular weight materials from cell to cell. Mutations in this gene have been associated with atherosclerosis and a higher risk of myocardial infarction.Synonyms:C37	Product Type:	Primary Antibodies
Reactivity:HumanHost:RabbitIsotype:IgGClonality:PolyclonalImmuogen:Recombinant protein of human GJA4Formulation:Dis SpecificPorrefication:Intipy upificationPorrigitation:Negoedication of upiditicationFornge:Store at -20°C (regular) and -80°C (long term). Avoid freeze / thaw cycles. Buffer: PBS with 20°C social unaride, 50% glycerol, pH7.3.Porrification:Intipy upificationFornge:Negoedication:Storage:Store at -20°C as received.Storage:Stole for 12 months from date of receipt.Predicted Protein SizeStole for 12 months from date of receipt.Predicted Protein SizeStole polycipy and -80°C (long term). Avoid freeze of pulse of parameters of protein alpha 4Pashase Link:NP.002051 Interz Gene 2701 Human PS212Background:This gene encodes a member of the connexing gene family. The encoded protein is a component of gap junctions, which are composed of arrays of intercellular channels been associated with atherosclerosis and a higher risks of witations in this gene have been associated with atherosclerosis and a higher risks of witations in this gene have been associated with atherosclerosis and a higher risks of witations in this gene have been associated with atherosclerosis and a higher risks of witations in this gene have been associated with atherosclerosis and a higher risks of witations in this gene have been associated with atherosclerosis and a higher risks of witations in this gene have been associated with atherosclerosis and a higher risks of witations in this gene have been associated with atherosclerosis and a higher risks of	Applications:	WB
Host:RabitIsotype:IgGClonality:PolyclonalImmunogen:Recombinant protein of human GJA4Formulation:Store at -20°C (regular) and -80°C (long term). Avoid freeze / thaw cycles. Buffer: PBS with 0.02% sodium azide, 50% glycerol, pH7.3.Concentration:Iot specificPurification:Iot specificPurification:UnconjugatedStore at -20°C as received.Storage:Stable for 12 months from date of receipt.Stability:Stable for 12 months from date of receipt.Predicted Protein Size37 kDaGene Name:ga junction protein alpha 4Database Link:NP 002051 Entrez Gene 2701 Human DS212Background:This gene encodes a member of the connexin gene family. The encoded protein is a omponent of gap junctions, which are composed of arrays of intercellular channels of movide a route for the diffusion of low molecular weight materials from cell to cell. Mutations in this gene have been associated with atherosclerosis and a higher risk of myoridal infarction.Synonyms:CX37	Recommended Dilution:	WB 1:500 - 1:2000
Isotype:IgGClonality:PolyclonalImmunogen:Recombinant protein of human GJA4Formulation:Store at -20°C (regular) and -80°C (long term). Avoid freeze / thaw cycles. Buffer: PBS with 0.02% sodium azide, 50% glycerol, pH7.3.Concentration:Iot specificPurification:Affinity purificationConjugation:UnconjugatedStore at -20°C as received.Stability:Stable for 12 months from date of receipt.Predicted Protein Size37 kDaGene Name:ga junction protein alpha 4Database Link:NP 002051 Entrez Gene 2701 Human DS212Background:Nis gene encodes a member of the connexin gene family. The encoded protein is a omponent of gap junctions, which are composed of arrays of intercellular channels of movide a route for the diffusion of low molecular weight materials from cell to cell. Mutations in this gene have been associated with atherosclerosis and a higher risk of myoridal infarction.Synonyms:C33	Reactivity:	Human
Clonality:PolyclonalImmunogen:Recombinant protein of human GJA4Formulation:Store at -20°C (regular) and -80°C (long term). Avoid freeze / thaw cycles. Buffer: PBS with 0.02% sodium azide, 50% glycerol, pH7.3.Concentration:lot specificPurification:Affinity purificationConjugation:UnconjugatedStore at -20°C as received.Stability:Stable for 12 months from date of receipt.Predicted Protein Size:37 kDaGene Name:gap junction protein alpha 4Database Link:NP 002051 Entrez Gene 2701 Human P35212Background:This gene encodes a member of the connexin gene family. The encoded protein is a component of gap junctions, which are composed of arrays of intercellular channels that provide a route for the diffusion of low molecular weight materials from cell to cell. Mutations in this gene have been associated with atherosclerosis and a higher risk of myocardial infarction.Synonyms:CX37	Host:	Rabbit
Immunogen:Recombinant protein of human GJA4Formulation:Store at -20°C (regular) and -80°C (long term). Avoid freeze / thaw cycles. Buffer: PBS with 0.02% sodium azide, 50% glycerol, pH7.3.Concentration:Iot specificPurification:Affinity purificationConjugation:UnconjugatedStore at -20°C as received.Stability:Stable for 12 months from date of receipt.Predicted Protein Size:37 kDaGene Name:gap junction protein alpha 4Database Link:NP 002051 Entrez Gene 2701 Human P35212Background:This gene encodes a member of the connexin gene family. The encoded protein is a component of gap junctions, which are composed of arrays of intercellular channels that provide a route for the diffusion of low molecular weight materials from cell to cell. Mutations in this gene have been associated with atherosclerosis and a higher risk of myocardial infarction.Synonyms:CX37	lsotype:	IgG
Formulation:Store at -20°C (regular) and -80°C (long term). Avoid freeze / thaw cycles. Buffer: PBS with 0.02% sodium azide, 50% glycerol, pH7.3.Concentration:Iot specificPurification:Affinity purificationConjugation:UnconjugatedStorage:Store at -20°C as received.Stability:Stable for 12 months from date of receipt.Predicted Protein Size37 kDaGene Name:ag junction protein alpha 4Database Link:NP 002051 Entrez Gene 2701 Human P35212Background:This gene encodes a member of the connexin gene family. The encoded protein is a component of gap junctions, which are composed of arrays of intercellular channels that provide a route for the diffusion of low molecular weight materials from cell to cell. Mutations in this gene have been associated with atherosclerosis and a higher risk of myocardial infarction.Synonyms:CX37	Clonality:	Polyclonal
Concentration:lot specificPurification:Affinity purificationConjugation:UnconjugatedStorage:Store at -20°C as received.Stability:Stable for 12 months from date of receipt.Predicted Protein Size:37 kDaGene Name:gap junction protein alpha 4Database Link:NP 002051 Entrez Gene 2701 Human P35212Background:This gene encodes a member of the connexin gene family. The encoded protein is a component of gap junctions, which are composed of arrays of intercellular channels that provide a route for the diffusion of low molecular weight materials from cell to cell. Mutations in this gene have been associated with atherosclerosis and a higher risk of myocardial infarction.Synonyms:CX37	Immunogen:	Recombinant protein of human GJA4
Purification:Affinity purificationConjugation:UnconjugatedStorage:Store at -20°C as received.Stability:Stable for 12 months from date of receipt.Predicted Protein Size:37 kDaGene Name:ga junction protein alpha 4Database Link:NP 002051 Entrez Gene 2701 Human P35212Background:his gene encodes a member of the connexin gene family. The encode protein sig omponent of gap junctions, which are composed of arrays of intercellular channels shut invocardial infarction.Synonyms:CX37	Formulation:	
Conjugation:UnconjugatedStorage:Store at -20°C as received.Stability:Stable for 12 months from date of receipt.Predicted Protein Size:37 kDaGene Name:gap junction protein alpha 4Database Link:NP 002051 Entrez Gene 2701 Human P35212Background:This gene encodes a member of the connexin gene family. The encoded protein is a component of gap junctions, which are composed of arrays of intercellular channels that provide a route for the diffusion of low molecular weight materials from cell to cell. Mutations in this gene have been associated with atherosclerosis and a higher risk of myocardial infarction.Synonyms:CX37	Concentration:	lot specific
Storage:Store at -20°C as received.Stability:Stable for 12 months from date of receipt.Predicted Protein Size:37 kDaGene Name:gap junction protein alpha 4Database Link:NP 002051 Entrez Gene 2701 Human P35212Background:This gene encodes a member of the connexin gene family. The encoded protein is a component of gap junctions, which are composed of arrays of intercellular channels that provide a route for the diffusion of low molecular weight materials from cell to cell. Mutations in this gene have been associated with atherosclerosis and a higher risk of myocardial infarction.Synonyms:CX37	Purification:	Affinity purification
Stability:Stable for 12 months from date of receipt.Predicted Protein Size:37 kDaGene Name:gap junction protein alpha 4Database Link:NP 002051 Entrez Gene 2701 Human P35212Background:This gene encodes a member of the connexin gene family. The encoded protein is a component of gap junctions, which are composed of arrays of intercellular channels that provide a route for the diffusion of low molecular weight materials from cell to cell. Mutations in this gene have been associated with atherosclerosis and a higher risk of myocardial infarction.Synonyms:CX37	Conjugation:	Unconjugated
Predicted Protein Size:37 kDaGene Name:gap junction protein alpha 4Database Link:NP 002051 Entrez Gene 2701 Human P35212Background:This gene encodes a member of the connexin gene family. The encoded protein is a component of gap junctions, which are composed of arrays of intercellular channels that provide a route for the diffusion of low molecular weight materials from cell to cell. Mutations in this gene have been associated with atherosclerosis and a higher risk of myocardial infarction.Synonyms:CX37	Storage:	Store at -20°C as received.
Gene Name:gap junction protein alpha 4Database Link:NP 002051 Entrez Gene 2701 Human P35212Background:This gene encodes a member of the connexin gene family. The encoded protein is a component of gap junctions, which are composed of arrays of intercellular channels that provide a route for the diffusion of low molecular weight materials from cell to cell. Mutations in this gene have been associated with atherosclerosis and a higher risk of myocardial infarction.Synonyms:CX37	Stability:	Stable for 12 months from date of receipt.
Database Link:NP 002051 Entrez Gene 2701 Human P35212Background:This gene encodes a member of the connexin gene family. The encoded protein is a component of gap junctions, which are composed of arrays of intercellular channels that provide a route for the diffusion of low molecular weight materials from cell to cell. Mutations in this gene have been associated with atherosclerosis and a higher risk of myocardial infarction.Synonyms:CX37	Predicted Protein Size:	37 kDa
Entrez Gene 2701 Human P35212Background:This gene encodes a member of the connexin gene family. The encoded protein is a component of gap junctions, which are composed of arrays of intercellular channels that provide a route for the diffusion of low molecular weight materials from cell to cell. Mutations in this gene have been associated with atherosclerosis and a higher risk of myocardial infarction.Synonyms:CX37	Gene Name:	gap junction protein alpha 4
 component of gap junctions, which are composed of arrays of intercellular channels that provide a route for the diffusion of low molecular weight materials from cell to cell. Mutations in this gene have been associated with atherosclerosis and a higher risk of myocardial infarction. Synonyms: CX37 	Database Link:	Entrez Gene 2701 Human
	Background:	component of gap junctions, which are composed of arrays of intercellular channels that provide a route for the diffusion of low molecular weight materials from cell to cell. Mutations in this gene have been associated with atherosclerosis and a higher risk of
Protein Families: Ion Channels: Other, Transmembrane	Synonyms:	CX37
	Protein Families:	Ion Channels: Other, Transmembrane
