# Product datasheet for TA332878

### **DYNLL1 Rabbit Polyclonal Antibody**

## **Product data:**

Product Type:	Primary Antibodies
Applications:	WB
Recommended Dilution:	WB 1:500 - 1:2000
Reactivity:	Human, Mouse
Host:	Rabbit
lsotype:	lgG
Clonality:	Polyclonal
Immunogen:	Recombinant protein of human DYNLL1
Formulation:	Store at -20°C (regular) and -80°C (long term). Avoid freeze / thaw cycles. Buffer: PBS with 0.02% sodium azide, 50% glycerol, pH7.3.
Concentration:	lot specific
Purification:	Affinity purification
Conjugation:	Unconjugated
Storage:	Store at -20°C as received.
Stability:	Stable for 12 months from date of receipt.
Predicted Protein Size:	89
Gene Name:	dynein light chain LC8-type 1
Database Link:	<u>NP_003737</u> <u>Entrez Gene 56455 MouseEntrez Gene 8655 Human</u> <u>P63167</u>

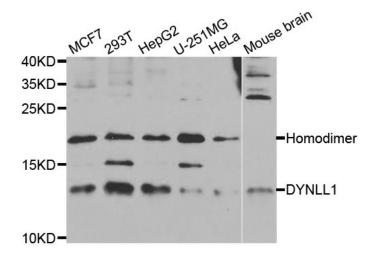

This product is to be used for laboratory only. Not for diagnostic or therapeutic use. ©2023 OriGene Technologies, Inc., 9620 Medical Center Drive, Ste 200, Rockville, MD 20850, US

#### **GRIGENE** DYNLL1 Rabbit Polyclonal Antibody – TA332878

Background:Cytoplasmic dyneins are large enzyme complexes with a molecular mass of about 1,200 kD.<br/>They contain two force-producing heads formed primarily from dynein heavy chains, and<br/>stalks linking the heads to a basal domain, which contains a varying number of accessory<br/>intermediate chains. The complex is involved in intracellular transport and motility. The<br/>protein described in this record is a light chain and exists as part of this complex but also<br/>physically interacts with and inhibits the activity of neuronal nitric oxide synthase. Binding of<br/>this protein destabilizes the neuronal nitric oxide synthase dimer, a conformation necessary<br/>for activity, and it may regulate numerous biologic processes through its effects on nitric<br/>oxide synthase activity. Alternate transcriptional splice variants have been characterized.

Synonyms: DLC1; DLC8; DNCL1; DNCLC1; hdlc1; LC8; LC8a; PIN
