Simple Western: beta Tubulin Antibody TA336361 - Image shows a specific band for beta Tubulin in 0.5 mg/mL of Human Brain lysate. This experiment was performed under reducing conditions using the 12-230 kDa separation system.

Immunohistochemistry-Paraffin: beta Tubulin Antibody TA336361 - Human kidney tubules stained with beta-Tubulin antibody at 10 ug/mL. Staining of formalin-fixed tissues is enhanced by boiling tissue sections in 10 mM sodium citrate buffer, pH 6.0 for 10-20 min followed by cooling at RT for 20 min.

Western Blot: beta Tubulin Antibody TA336361 - Analysis of beta-Tubulin in A: human brain, B: mouse brain and C: rat brain tissue lysates using the this antibody at 25 ug/mL.
