

## **Product datasheet for TA337297**

**TRIM27 Rabbit Polyclonal Antibody** 

## **Product data:**

**Product Type:** Primary Antibodies

Applications: WB

Recommended Dilution: WB

Reactivity: Human

**Host:** Rabbit

**Isotype:** IgG

Clonality: Polyclonal

**Immunogen:** The immunogen for anti-TRIM27 antibody: synthetic peptide directed towards the middle

region of human TRIM27. Synthetic peptide located within the following region:

KRVKDLKKRRRAQGEQARAELLSLTQMEREKIVWEFEQLYHSLKEHEYRL

Formulation: Liquid. Purified antibody supplied in 1x PBS buffer with 0.09% (w/v) sodium azide and 2%

sucrose.

Purification: Affinity Purified
Conjugation: Unconjugated

**Storage:** Store at -20°C as received.

**Stability:** Stable for 12 months from date of receipt.

Predicted Protein Size: 41 kDa

**Gene Name:** tripartite motif containing 27

Database Link: NP 112212

Entrez Gene 5987 Human

P14373

Background: TRIM27 is a member of the tripartite motif (TRIM) family. The TRIM motif includes three zinc-

binding domains, a RING, a B-box type 1 and a B-box type 2, and a coiled-coil region. This protein localizes to the nuclear matrix. It interacts with the enhancer of polycomb protein and represses gene transcription. It is also thought to be involved in the differentiation of male germ cells. Fusion of the N-terminus of this protein with the truncated C-terminus of the RET

gene product has been shown to result in production of the ret transforming protein.

Synonyms: RNF76; TRIM27
