Background: member ofThe DEAD box family of putative RNA helicases; interacts with SF-1 and demonstrates transcriptional repression [RGD, Feb 2006]. Sequence Note:The RefSeq transcript and protein were derived from genomic sequence to makeThe sequence consistent withThe reference genome assembly.The genomic coordinates used forThe transcript record were based on alignments. ##Evidence-Data-START## RNaseq introns :: single sample supports all introns SRS388402 [ECO:0000348] ##Evidence-Data-END##
