

## Product datasheet for TA342389

**LHX8 Rabbit Polyclonal Antibody** 

## **Product data:**

**Product Type: Primary Antibodies** 

**Applications:** 

Recommended Dilution: WB

Reactivity: Human

Rabbit Host: Isotype:

Clonality: Polyclonal

Immunogen: The immunogen for anti-LHX8 antibody: synthetic peptide directed towards the middle region

> of human LHX8. Synthetic peptide located within the following region: LSTGEEFALVEEKVLCRVHYDCMLDNLKREVENGNGISVEGALLTEQDVN

Formulation: Liquid. Purified antibody supplied in 1x PBS buffer with 0.09% (w/v) sodium azide and 2%

sucrose.

lgG

Note that this product is shipped as lyophilized powder to China customers.

Conjugation: Unconjugated

Storage: Store at -20°C as received.

Stability: Stable for 12 months from date of receipt.

**Predicted Protein Size:** 39 kDa

Gene Name: LIM homeobox 8 Database Link: NP 001001933

Entrez Gene 431707 Human

Q68G74

Background: The protein encoded by this gene is a member of the LIM homeobox family of proteins, which

> are involved in patterning and differentiation of various tissue types. These proteins contain two tandemly repeated cysteine-rich double-zinc finger motifs known as LIM domains, in addition to a DNA-binding homeodomain. This family member is a transcription factor that plays a role in tooth morphogenesis. It is also involved in oogenesis and in neuronal

> differentiation. This gene is a candidate gene for cleft palate, and it is also associated with odontoma formation. Alternative splicing of this gene results in multiple transcript variants.
