Product datasheet for TA342702

OR1S1 Rabbit Polyclonal Antibody

Product data:

Product Type: Primary Antibodies
Applications: WB
Recommend Dilution: WB
Reactivity: Human
Host: Rabbit
Isotype: IgG
Clonality: Polyclonal
Immunogen: The immunogen for anti-OR1S1 antibody: synthetic peptide directed towards the C terminal of human OR1S1. Synthetic peptide located within the following region: FSTCGSHLTVLLFYGTIVGVYFFPSSTHPEDTDKIGAVLFTVVTPMINP
Formulation: Liquid. Purified antibody supplied in 1x PBS buffer with 0.09% (w/v) sodium azide and 2% sucrose.

Note that this product is shipped as lyophilized powder to China customers.

Storage: Store at -20°C as received.
Stability: Stable for 12 months from date of receipt.
Predicted Protein Size: 37 kDa
Gene Name: olfactory receptor family 1 subfamily S member 1 (gene/pseudogene)
Database Link: NP_001004458 Entrez Gene 219959 Human
Background: Olfactory receptors interact with odorant molecules in the nose, to initiate a neuronal response that triggers the perception of a smell. The olfactory receptor proteins are members of a large family of G-protein-coupled receptors (GPCR) arising from single coding-exon genes. Olfactory receptors share a 7-transmembrane domain structure with many neurotransmitter and hormone receptors and are responsible for the recognition and G protein-mediated transduction of odorant signals. The olfactory receptor gene family is the largest in the genome. The nomenclature assigned to the olfactory receptor genes and proteins for this organism is independent of other organisms.

Synonyms: OR11-232; OST034
Note: Immunogen Sequence Homology: Pig: 100%; Rat: 100%; Human: 100%; Mouse: 100%; Guinea pig: 100%; Dog: 86%; Rabbit: 86%; Horse: 79%
Protein Families: Transmembrane
Protein Pathways: Olfactory transduction
