

Product datasheet for **TA344223**

Thrombopoietin (THPO) Rabbit Polyclonal Antibody

Product data:

Product Type:	Primary Antibodies
Applications:	WB
Recommended Dilution:	WB
Reactivity:	Human
Host:	Rabbit
Isotype:	IgG
Clonality:	Polyclonal
Immunogen:	The immunogen for anti-THPO antibody: synthetic peptide directed towards the middle region of human THPO. Synthetic peptide located within the following region: NLQPGYSPSPTHPPTGQYTLFPLPPTLPTPVVQLHPLLDPDSAPTPTPTS
Formulation:	Liquid. Purified antibody supplied in 1x PBS buffer with 0.09% (w/v) sodium azide and 2% sucrose. <i>Note that this product is shipped as lyophilized powder to China customers.</i>
Purification:	Affinity Purified
Conjugation:	Unconjugated
Storage:	Store at -20°C as received.
Stability:	Stable for 12 months from date of receipt.
Predicted Protein Size:	35 kDa
Gene Name:	thrombopoietin
Database Link:	NP_000451 Entrez Gene 7066 Human P40225

Background:

Megakaryocytopoiesis is the cellular development process that leads to platelet production. THPO is a humoral growth factor that is necessary for megakaryocyte proliferation and maturation, as well as for thrombopoiesis. THPO is the ligand for MLP/C_MPL, the product of myeloproliferative leukemia virus oncogene. Megakaryocytopoiesis is the cellular development process that leads to platelet production. The protein encoded by this gene is a humoral growth factor that is necessary for megakaryocyte proliferation and maturation, as well as for thrombopoiesis. This protein is the ligand for MLP/C_MPL, the product of myeloproliferative leukemia virus oncogene. Publication Note: This RefSeq record includes a subset of the publications that are available for this gene. Please see the Entrez Gene record to access additional publications.

Synonyms:

MGDF; MKCSF; ML; M PLLG; THCYT1; TPO

Note:

Immunogen Sequence Homology: Human: 100%; Rabbit: 90%; Dog: 83%

Protein Families:

Druggable Genome, Secreted Protein

Protein Pathways:

Hematopoietic cell lineage

Product images:

WB Suggested Anti-THPO Antibody Titration: 0.2-1 ug/ml; ELISA Titer: 1:62500; Positive Control: MCF7 cell lysate
