

Product datasheet for TA350026

Glycerol kinase (GK) Rabbit Polyclonal Antibody

Product data:

Product Type: Primary Antibodies

Applications: IHC

Recommended Dilution: IHC: 100-300

Positive control: Human liver cancer Predicted cell location: Cytoplasm

Reactivity: Human, Mouse, Rat

Host: Rabbit Isotype: IgG

Clonality: Polyclonal

Immunogen: Fusion protein of human GK

Formulation: pH7.4 PBS, 0.05% NaN3, 40% Glyceroln

Concentration: lot specific

Purification: Antigen affinity purification

Conjugation: Unconjugated

Storage: Store at -20°C as received.

Stability: Stable for 12 months from date of receipt.

Gene Name: glycerol kinase **Database Link:** NP 976325

Entrez Gene 14933 MouseEntrez Gene 79223 RatEntrez Gene 2710 Human

P32189

Background: The protein encoded by this gene belongs to the FGGY kinase family. This protein is a key

enzyme in the regulation of glycerol uptake and metabolism. It catalyzes the phosphorylation

of glycerol by ATP, yielding ADP and glycerol-3-phosphate. Mutations in this gene are associated with glycerol kinase deficiency (GKD). Alternatively spliced transcript variants

encoding different isoforms have been found for this gene.

Synonyms: GK1; GKD

Protein Families: Druggable Genome
