

Product datasheet for TA351392S

MEIS1 Rabbit Polyclonal Antibody

Product data:

Product Type: Primary Antibodies

Applications: IHC

Recommended Dilution: IHC: 50-200

Positive control: Human prostate cancer Predicted cell location: Nucleus or Cytoplasm

Reactivity: Human, Mouse

Host: Rabbit Isotype: IgG

Clonality: Polyclonal

Immunogen: Synthetic peptide of human MEIS1

Formulation: pH7.4 PBS, 0.05% NaN3, 40% Glyceroln

Purification: Antigen affinity purification

Conjugation: Unconjugated

Storage: Store at -20°C as received.

Stability: Stable for 12 months from date of receipt.

Gene Name: Meis homeobox 1

Database Link: NP 002389

Entrez Gene 17268 MouseEntrez Gene 4211 Human

O00470

Background: Homeobox genes, of which the most well-characterized category is represented by the HOX

genes, play a crucial role in normal development. In addition, several homeoproteins are involved in neoplasia. This gene encodes a homeobox protein belonging to the TALE ('three

amino acid loop extension') family of homeodomain-containing proteins.

Synonyms: MGC43380

Protein Families: Transcription Factors
