Product datasheet for TA357643

SPANX (SPANXC) Rabbit Polyclonal Antibody

Product data:

Product Type:	Primary Antibodies
Applications:	WB
Reactivity:	Human
Host:	Rabbit
Clonality:	Polyclonal
Specificity:	Expected reactivity: Human Homology: Human: 100%
Formulation:	Liquid. Purified antibody supplied in 1x PBS buffer with 0.09% (w/v) sodium azide and 2% sucrose. Note that this product is shipped as lyophilized powder to China customers.
Concentrations	
Concentration:	lot specific
Purification:	Affinity Purified
Conjugation:	Unconjugated
Storage:	For short term use, store at 2-8°C up to 1 week. For long term storage, store at -20°C in small aliquots to prevent freeze-thaw cycles.
Stability:	Shelf life: one year from despatch.
Predicted Protein Size:	11kDa
Gene Name:	SPANX family member C
Database Link:	<u>NP_073152</u> <u>Entrez Gene 64663 Human</u> <u>Q9NY87</u>

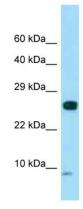

This product is to be used for laboratory only. Not for diagnostic or therapeutic use. ©2022 OriGene Technologies, Inc., 9620 Medical Center Drive, Ste 200, Rockville, MD 20850, US

GRIGENE SPANX (SPANXC) Rabbit Polyclonal Antibody – TA357643

Background:Temporally regulated transcription and translation of several testis-specific genes is required
to initiate the series of molecular and morphological changes in the male germ cell lineage
necessary for the formation of mature spermatozoa. This gene is a member of the SPANX
family, which is located in a gene cluster on chromosome X. The SPANX genes encode
differentially expressed testis-specific proteins that localize to various subcellular
compartments. This particular gene encodes a protein that localizes to the nucleus and is
expressed in highly metastatic cell lines, making the protein a potential diagnostic and
prognostic marker. The protein belongs to a family of cancer/testis antigens and represents a
potential target for cancer immunotherapy.

Synonyms: C; CT11.3; CTp11; SPANX-C
