

## Product datasheet for TA361029

### C1orf55 (SDE2) Rabbit Polyclonal Antibody

#### Product data:

|                                |                                                                                                                                         |
|--------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Type:</b>           | Primary Antibodies                                                                                                                      |
| <b>Applications:</b>           | WB                                                                                                                                      |
| <b>Reactivity:</b>             | Human                                                                                                                                   |
| <b>Host:</b>                   | Rabbit                                                                                                                                  |
| <b>Clonality:</b>              | Polyclonal                                                                                                                              |
| <b>Immunogen:</b>              | The immunogen is a synthetic peptide directed towards the middle region of human C1ORF55                                                |
| <b>Specificity:</b>            | <b>Expected reactivity:</b> Human                                                                                                       |
| <b>Formulation:</b>            | Liquid. Purified antibody supplied in 1x PBS buffer with 0.09% (w/v) sodium azide and 2% sucrose.                                       |
| <b>Concentration:</b>          | lot specific                                                                                                                            |
| <b>Purification:</b>           | Affinity purified                                                                                                                       |
| <b>Conjugation:</b>            | Unconjugated                                                                                                                            |
| <b>Storage:</b>                | For short term use, store at 2-8°C up to 1 week. For long term storage, store at -20°C in small aliquots to prevent freeze-thaw cycles. |
| <b>Stability:</b>              | Shelf life: one year from despatch.                                                                                                     |
| <b>Predicted Protein Size:</b> | 49 kDa                                                                                                                                  |
| <b>Gene Name:</b>              | SDE2 telomere maintenance homolog                                                                                                       |
| <b>Database Link:</b>          | <a href="#">NP_689821.3</a><br><a href="#">Entrez Gene 163859 Human</a><br><a href="#">Q6IQ49</a>                                       |
| <b>Synonyms:</b>               | C1orf55; dJ671D7.1; RP4-671D7.1                                                                                                         |

Product images:

Host: Rabbit  
 Target Name: C1orf55  
 Sample Type: Ovary Tumor Lysate  
 Antibody Dilution: 1.0µg/ml

Host: Rabbit  
 Target Name: C1ORF55  
 Sample Tissue: Human Ovary Tumor lysates  
 Antibody Dilution: 1ug/ml
