# Product datasheet for TA364247

# **BNP (NPPB) Rabbit Polyclonal Antibody**

# **Product data:**

Product Type:	Primary Antibodies
Applications:	ELISA
Recommended Dilution:	This antibody has been tested and validated in ELISA against BNP-32 (22-46). Other applications like immunohistochemistry (IHC), FACS or Western Blot may work as well. Optimal dilutions should be determined by the end user.
Reactivity:	Human
Host:	Rabbit
Clonality:	Polyclonal
Immunogen:	Synthetic peptide H-Ser-Pro-Lys-Thr-Met-Arg-Asp-Ser-Gly-Cys-Phe-Gly- Arg-Arg-Leu-Asp-Arg- lle-Gly-Ser-Leu-Ser-Gly-Leu-Gly-Cys-Asn-Val- Leu-Arg-Arg-Tyr-OH, (Disulfide bond) coupled to carrier protein.
Formulation:	Neat undiluted antiserum, lyophilized, packaged under nitrogen. Reconstitute by adding 50µl distilled water. This will give the equivalent of undiluted antiserum.
Concentration:	N/A
Conjugation:	Unconjugated
Storage:	Original vial: at least one year at 4° - 8°C from date of delivery. Minimize repeated thawing and freezing of the antiserum by freezing aliquots at -20°C or below.
Gene Name:	natriuretic peptide B
Database Link:	<u>Entrez Gene 4879 Human</u> <u>P16860</u>

#### **GRIGENE** BNP (NPPB) Rabbit Polyclonal Antibody – TA364247

Background:The natriuretic peptide family consists of three biologically active peptides: atrial natriuretic<br/>peptide (ANP), brain (or B-type) natriuretic peptide (BNP), and C-type natriuretic peptide<br/>(CNP). Among these, ANP and BNP are secreted by the heart and act as cardiac hormones.<br/>Both ANP and BNP preferentially bind to natriuretic peptide receptor-A (NPR-A) and exert<br/>similar effects. Expression and secretion of ANP and BNP are stimulated by various factors<br/>and are regulated via multiple signaling pathways. The human BNP precursor proBNP is<br/>proteolytically processed to BNP1-32 and N-terminal proBNP (NT-proBNP) within ventricular<br/>myocytes. Uncleaved proBNP as well as mature BNP1-32 and NT-proBNP is secreted from<br/>the heart, and its secretion is increased in patients with heart failure. This antibody was<br/>generated by immunization of rabbits with Prepro-BNP-32 (22-46) coupled to a carrier<br/>protein.

Synonyms:

BNP
