

Product datasheet for TA364462S

DUSP14 Rabbit Polyclonal Antibody

Product data:

Product Type: Primary Antibodies

Applications: IHC

Recommended Dilution: IHC: 15-50

Positive control: Human breast cancer Predicted cell location: Cytoplasm

Reactivity: Human, Mouse

Host: Rabbit Isotype: IgG

Clonality: Polyclonal

Immunogen: Fusion protein of human DUSP14

Formulation: pH7.4 PBS, 0.05% NaN3, 40% Glycerol

Purification: Antigen affinity purification

Conjugation: Unconjugated Storage: Store at -20°C.

Stability: 1 year

Gene Name: dual specificity phosphatase 14

Database Link: Entrez Gene 11072 Human

O95147

Background: Dual-specificity phosphatases (DUSPs) constitute a large heterogeneous subgroup of the type

I cysteine-based protein-tyrosine phosphatase superfamily. DUSPs are characterized by their ability to dephosphorylate both tyrosine and serine/threonine residues. They have been implicated as major modulators of critical signaling pathways. DUSP14 contains the

consensus DUSP C-terminal catalytic domain but lacks the N-terminal CH2 domain found in

the MKP (mitogen-activated protein kinase phosphatase) class of DUSPs.

Synonyms: MKP-6; MKP-L; MKP6; OTTHUMP00000164064; OTTHUMP00000164065
