

Product datasheet for TA365025

SLPI Rabbit Polyclonal Antibody

Product data:

Product Type: Primary Antibodies

Applications: IHC

Recommended Dilution: IHC: 25-100

Positive control: Human thyroid cancer

Predicted cell location: Secreted

Reactivity: Human
Host: Rabbit
Isotype: IgG

Clonality: Polyclonal

Immunogen: Fusion protein of human SLPI

Formulation: pH7.4 PBS, 0.05% NaN3, 40% Glycerol

Concentration: lot specific

Purification: Antigen affinity purification

Conjugation: Unconjugated Storage: Store at -20°C.

Stability: 1 year

Gene Name: secretory leukocyte peptidase inhibitor

Database Link: <u>Entrez Gene 6590 Human</u>

P03973

Background: This gene encodes a secreted inhibitor which protects epithelial tissues from serine

proteases. It is found in various secretions including seminal plasma, cervical mucus, and bronchial secretions, and has affinity for trypsin, leukocyte elastase, and cathepsin G. Its inhibitory effect contributes to the immune response by protecting epithelial surfaces from attack by endogenous proteolytic enzymes. This antimicrobial protein has antibacterial,

antifungal and antiviral activity.

Synonyms: ALK1; ALP; antileukoproteinase; BLPI; HUSI-1; HUSI-1; MPI; WAP4; WFDC4
