

# Product datasheet for TA366621S

## Hephaestin (HEPH) Rabbit Polyclonal Antibody

### **Product data:**

#### **Product Type: Primary Antibodies** IHC **Applications:** Recommended Dilution: IHC: 100-300 Positive control: Human colorectal cancer Predicted cell location: Cytoplasm **Reactivity:** Human, Mouse, Rat Host: Rabbit Isotype: lgG **Clonality:** Polyclonal Immunogen: Fusion protein of human HEPH Formulation: pH7.4 PBS, 0.05% NaN3, 40% Glycerol **Purification:** Antigen affinity purification **Conjugation:** Unconjugated Store at -20°C. Storage: Stability: 1 year Gene Name: hephaestin Database Link: Entrez Gene 9843 Human <u>Q9BQS7</u> **Background:** This gene encodes a member of the multicopper oxidase protein family. The encoded protein is involved in the transport of dietary iron from epithelial cells of the intestinal lumen into the circulatory system, and may be involved in copper transport and homeostasis. In mouse, defects in this gene can lead to severe microcytic anemia. Alternative splicing results in multiple transcript variants. [provided by RefSeq, Aug 2013] Synonyms: CPL; hephaestin; KIAA0698
