

Product datasheet for TA366960

APOB48R (APOBR) Rabbit Polyclonal Antibody

Product data:

Product Type: Primary Antibodies

Applications: IHC

Recommended Dilution: IHC: 10-50

Positive control: Human liver cancer

Predicted cell location: Cytoplasm and Cell membrane

Reactivity: Human
Host: Rabbit
Isotype: IgG

Clonality: Polyclonal

Immunogen:Synthetic peptide of human APOBRFormulation:pH7.4 PBS, 0.05% NaN3, 40% Glycerol

Concentration: lot specific

Purification: Antigen affinity purification

Conjugation: Unconjugated Storage: Store at -20°C.

Stability: 1 year

Gene Name: apolipoprotein B receptor

Database Link: Entrez Gene 55911 Human

Q0VD83

Background: Apolipoprotein B48 receptor is a macrophage receptor that binds to the apolipoprotein B48

of dietary triglyceride (TG)-rich lipoproteins. This receptor may provide essential lipids, lipid-soluble vitamins and other nutrients to reticuloendothelial cells. If overwhelmed with elevated plasma triglyceride, the apolipoprotein B48 receptor may contribute to foam cell formation,

endothelial dysfunction, and atherothrombogenesis.

Synonyms: Apob-48r; Apob48r; RGD1565169
