

Product datasheet for TA367848S

Atrophin 1 (ATN1) Rabbit Polyclonal Antibody

Product data:

Product Type: Primary Antibodies

Applications: IHC

Recommended Dilution: IHC: 40-200

Positive control: Human thyroid cancer

Predicted cell location: Nucleus and Cytoplasm

Reactivity: Human, Mouse, Rat

Host: Rabbit Isotype: IgG

Clonality: Polyclonal

Immunogen: Synthetic peptide of human ATN1

Formulation: pH7.4 PBS, 0.05% NaN3, 40% Glycerol

Purification: Antigen affinity purification

Conjugation: Unconjugated Storage: Store at -20°C.

Stability: 1 year

Gene Name: atrophin 1

Database Link: Entrez Gene 1822 Human

P54259

Background: Dentatorubral pallidoluysian atrophy (DRPLA) is a rare neurodegenerative disorder

characterized by cerebellar ataxia, myoclonic epilepsy, choreoathetosis, and dementia. The disorder is related to the expansion from 7-23 copies to 49-75 copies of a trinucleotide repeat (CAG/CAA) within this gene. The encoded protein includes a serine repeat and a region of alternating acidic and basic amino acids, as well as the variable glutamine repeat. Alternative

splicing results in two transcripts variants that encode the same protein.

Synonyms: atrophin-1; B37; D12S755E; DRPLA; HRS; NOD
