

Product datasheet for TA368267S

EPS15 Rabbit Polyclonal Antibody

Product data:

Product Type: Primary Antibodies

Applications: IHC

Recommended Dilution: IHC: 50-300

Positive control: Human cervical cancer

Predicted cell location: Cell membrane and Cytoplasm

Reactivity: Human, Mouse

Host: Rabbit Isotype: IgG

Clonality: Polyclonal

Immunogen: Synthetic peptide of human EPS15

Formulation: pH7.4 PBS, 0.05% NaN3, 40% Glycerol

Purification: Antigen affinity purification

Conjugation: Unconjugated Storage: Store at -20°C.

Stability: 1 year

Gene Name: epidermal growth factor receptor pathway substrate 15

Database Link: Entrez Gene 2060 Human

P42566

Background: This gene encodes a protein that is part of the EGFR pathway. The protein is present at

clatherin-coated pits and is involved in receptor-mediated endocytosis of EGF. Notably, this gene is rearranged with the HRX/ALL/MLL gene in acute myelogeneous leukemias. Alternative

splicing results in multiple transcript variants encoding distinct isoforms.

Synonyms: AF-1P; AF1P; MLLT5
