

# Product datasheet for TA368659S

## Kinesin 5C (KIF5C) Rabbit Polyclonal Antibody

### **Product data:**

#### **Product Type: Primary Antibodies** IHC **Applications:** Recommended Dilution: IHC: 10-50 Positive control: Human liver cancer Predicted cell location: Cytoplasm **Reactivity:** Human, Mouse Host: Rabbit Isotype: lgG **Clonality:** Polyclonal Immunogen: Synthetic peptide of human KIF5C Formulation: pH7.4 PBS, 0.05% NaN3, 40% Glycerol **Purification:** Antigen affinity purification **Conjugation:** Unconjugated Store at -20°C. Storage: Stability: 1 year Gene Name: kinesin family member 5C Database Link: Entrez Gene 3800 Human 060282 **Background:** The protein encoded by this gene is a kinesin heavy chain subunit involved in the transport of cargo within the central nervous system. The encoded protein, which acts as a tetramer by associating with another heavy chain and two light chains, interacts with protein kinase CK2. Mutations in this gene have been associated with complex cortical dysplasia with other brain malformations-2. Two transcript variants, one protein-coding and the other non-protein coding, have been found for this gene. Synonyms: FL|44735; KIAA0531; KINN; MGC111478; NKHC; NKHC-2; NKHC2
