

Product datasheet for TA369307

PSP (REG1A) Rabbit Polyclonal Antibody

Product data:

Product Type: Primary Antibodies

Applications: WB

Recommended Dilution: WB: 500-2000

WB positive control: Human pancreas tissue lysate

Reactivity: Human

Host: Rabbit

Isotype: IgG

Clonality: Polyclonal

Immunogen: Fusion protein of human REG1A

Formulation: pH7.4 PBS, 0.05% NaN3, 40% Glycerol

Concentration: lot specific

Purification: Antigen affinity purification

Conjugation: Unconjugated Storage: Store at -20°C.

Stability: 1 year Predicted Protein Size: 19 kDa

Gene Name: regenerating family member 1 alpha

Database Link: Entrez Gene 5967 Human

P05451

Background: This gene is a type I subclass member of the Reg gene family. The Reg gene family is a

multigene family grouped into four subclasses, types I, II, III and IV, based on the primary structures of the encoded proteins. This gene encodes a protein that is secreted by the exocrine pancreas. It is associated with islet cell regeneration and diabetogenesis and may be involved in pancreatic lithogenesis. Reg family members REG1B, REGL, PAP and this gene are tandemly clustered on chromosome 2p12 and may have arisen from the same ancestral gene

by gene duplication.

Synonyms: ICRF; MGC12447; P19; protein-X; PSP; PSPS; PSPS1; PTP; REG

Product images:

Gel: 12%SDS-PAGE Lysate: 40 μg

Lane: Human pancreas tissue lysate

Primary antibody: TA369307 (REG1A Antibody) at

dilution 1/500

Secondary antibody: Goat anti rabbit IgG at

1/8000 dilution

Exposure time: 3 seconds
