

Product datasheet for TA369455S

VIP Rabbit Polyclonal Antibody

Product data:

Product Type: Primary Antibodies

Applications: IHC

Recommended Dilution: IHC: 100-300

Positive control: Human esophagus cancer

Predicted cell location: Secreted

Reactivity: Human, Rat

Host: Rabbit Isotype: lgG

Clonality: Polyclonal

Immunogen: Fusion protein of human VIP

Formulation: pH7.4 PBS, 0.05% NaN3, 40% Glycerol

Purification: Antigen affinity purification

Conjugation: Unconjugated Store at -20°C. Storage:

Stability: 1 year

Gene Name: vasoactive intestinal peptide

Database Link: Entrez Gene 7432 Human

P01282

Background: The protein encoded by this gene belongs to the glucagon family. It stimulates myocardial

> contractility, causes vasodilation, increases glycogenolysis, lowers arterial blood pressure and relaxes the smooth muscle of trachea, stomach and gall bladder. The protein also acts as an antimicrobial peptide with antibacterial and antifungal activity. Alternative splicing occurs at

this locus and two transcript variants encoding distinct isoforms have been identified.

Synonyms: MGC13587: PHM27
