

Product datasheet for TA369842

BRF2 Rabbit Polyclonal Antibody

Product data:

Product Type: Primary Antibodies

Applications: IHC

Recommended Dilution: IHC: 30-150

Positive control: Human liver cancer Predicted cell location: Nucleus

Reactivity: Human
Host: Rabbit
Isotype: IgG

Clonality: Polyclonal

Immunogen: Fusion protein of human BRF2

Formulation: pH7.4 PBS, 0.05% NaN3, 40% Glycerol

Concentration: lot specific

Purification: Antigen affinity purification

Conjugation: Unconjugated Storage: Store at -20°C.

Stability: 1 year

Gene Name: BRF2, RNA polymerase III transcription initiation factor 50 kDa subunit

Database Link: Entrez Gene 55290 Human

Q9HAW0

Background: This gene encodes one of the multiple subunits of the RNA polymerase III transcription factor

complex required for transcription of genes with promoter elements upstream of the

initiation site. The product of this gene, a TFIIB-like factor, is directly recruited to the TATA-box of polymerase III small nuclear RNA gene promoters through its interaction with the TATA-

binding protein.

Synonyms: BRF-2; BRFU; FLJ11052; hBRFU; hTFIIIB50; TFIIIB50
