

Product datasheet for TA372270

RTN4IP1 Rabbit Polyclonal Antibody

Product data:

Product Type: Primary Antibodies

Applications: IHC

Recommended Dilution: IHC: 25-100

Positive control: Human gastric cancer Predicted cell location: Cytoplasm

Reactivity: Human, Mouse

Host: Rabbit Isotype: IgG

Clonality: Polyclonal

Immunogen:Synthetic peptide of human RTN4IP1Formulation:pH7.4 PBS, 0.05% NaN3, 40% Glycerol

Concentration: lot specific

Purification: Antigen affinity purification

Conjugation: Unconjugated Storage: Store at -20°C.

Stability: 1 year

Gene Name: reticulon 4 interacting protein 1

Database Link: Entrez Gene 84816 Human

Q8WWV3

Background: This gene encodes a mitochondrial protein that interacts with reticulon 4, which is a potent

inhibitor of regeneration following spinal cord injury. This interaction may be important for reticulon-induced inhibition of neurite growth. Mutations in this gene can cause optic atrophy 10, with or without ataxia, mental retardation, and seizures. There is a pseudogene for this

gene on chromosome 12. Alternative splicing results in multiple transcript variants.

Synonyms: MGC12934; NIMP
