

## **Product datasheet for TA373187S**

## **ACAT1 (ACACA) Rabbit Polyclonal Antibody**

## **Product data:**

**Product Type:** Primary Antibodies

Applications: WE

Recommended Dilution: WB,1:1000 - 1:2000

Reactivity: Human, Mouse

Modifications: Unmodified

Host: Rabbit

**Isotype:** IgG

Clonality: Polyclonal

**Immunogen:** Recombinant protein of human ACACA.

**Formulation:** Buffer: PBS with 0.02% sodium azide,50% glycerol,pH7.3.

**Concentration:** lot specific

**Purification:** Affinity purification

Conjugation: Unconjugated

Storage: Store at -20°C. Avoid freeze / thaw cycles.

**Stability:** Shelf life: one year from despatch.

Predicted Protein Size: 265kDa

**Gene Name:** acetyl-CoA carboxylase alpha

Database Link: Entrez Gene 31 Human

Q13085

**Background:** Acetyl-CoA carboxylase (ACC) is a complex multifunctional enzyme system. ACC is a biotin-

containing enzyme which catalyzes the carboxylation of acetyl-CoA to malonyl-CoA, the rate-limiting step in fatty acid synthesis. There are two ACC forms, alpha and beta, encoded by two different genes. ACC-alpha is highly enriched in lipogenic tissues. The enzyme is under long term control at the transcriptional and translational levels and under short term regulation by

the phosphorylation/dephosphorylation of targeted serine residues and by allosteric transformation by citrate or palmitoyl-CoA. Multiple alternatively spliced transcript variants

divergent in the 5' sequence and encoding distinct isoforms have been found for this gene.
