

Product datasheet for TA373924

Product data:

Product Type: Primary Antibodies

BAMBI Rabbit Polyclonal Antibody

Applications: WE

Recommended Dilution: WB,1:500 - 1:2000

Reactivity: Human, Rat

Modifications: Unmodified

Host: Rabbit Isotype: IgG

Clonality: Polyclonal

Immunogen: Recombinant fusion protein containing a sequence corresponding to amino acids 21-152 of

human BAMBI (NP_036474.1).

Formulation: Buffer: PBS with 0.02% sodium azide,50% glycerol,pH7.3.

Concentration: lot specific

Purification: Affinity purification

Conjugation: Unconjugated

Storage: Store at -20°C. Avoid freeze / thaw cycles.

Stability: Shelf life: one year from despatch.

Predicted Protein Size: 29kDa

Gene Name: BMP and activin membrane-bound inhibitor

Database Link: Entrez Gene 25805 Human

Q13145

Background: This gene encodes a transmembrane glycoprotein related to the type I receptors of the

transforming growth factor-beta (TGF-beta) family, whose members play important roles in signal transduction in many developmental and pathological processes. The encoded protein

however is a pseudoreceptor, lacking an intracellular serine/threonine kinase domain required for signaling. Similar proteins in frog, mouse and zebrafish function as negative regulators of TGF-beta, which has led to the suggestion that the encoded protein may function to limit the signaling range of the TGF-beta family during early embryogenesis.
