

Product datasheet for TA373928

WB

Primary Antibodies

Human, Mouse, Rat

Recombinant protein of mouse BARD1

Store at -20°C. Avoid freeze / thaw cycles.

Shelf life: one year from despatch.

BRCA1 associated RING domain 1

14kDa/75kDa/84kDa/86kDa

Entrez Gene 12021 Mouse

Buffer: PBS with 0.02% sodium azide, 50% glycerol, pH7.3.

Unmodified

Polyclonal

lot specific

070445

Affinity purification

Unconjugated

Rabbit

lgG

Bard1 Rabbit Polyclonal Antibody

Recommended Dilution: WB,1:500 - 1:2000

GRIGENE Bard1 Rabbit Polyclonal Antibody – TA373928

Background:This gene encodes a protein which interacts with the N-terminal region of BRCA1. In addition
to its ability to bind BRCA1 in vivo and in vitro, it shares homology with the 2 most conserved
regions of BRCA1: the N-terminal RING motif and the C-terminal BRCT domain. The RING
motif is a cysteine-rich sequence found in a variety of proteins that regulate cell growth,
including the products of tumor suppressor genes and dominant protooncogenes. This
protein also contains 3 tandem ankyrin repeats. The BARD1/BRCA1 interaction is disrupted
by tumorigenic amino acid substitutions in BRCA1, implying that the formation of a stable
complex between these proteins may be an essential aspect of BRCA1 tumor suppression.
This protein may be the target of oncogenic mutations in breast or ovarian cancer. Multiple
alternatively spliced transcript variants encoding different isoforms have been found for this
gene.

Synonyms:

BARD-1

Product images:

Western blot analysis of extracts of various cell lines, using BARD1 antibody (TA373928) at 1:1000 dilution. | Secondary antibody: HRP Goat Anti-Rabbit IgG (H+L) at 1:10000 dilution. | Lysates/proteins: 25ug per lane. | Blocking buffer: 3% nonfat dry milk in TBST. | Detection: ECL Basic Kit . | Exposure time: 30s.
