

Product datasheet for TA374742

Choline kinase alpha (CHKA) Rabbit Polyclonal Antibody

Product data:

Product Type: Primary Antibodies Applications: WB Recommended Dilution: WB.1:500 - 1:2000 **Reactivity:** Human, Mouse, Rat **Modifications:** Unmodified Host: Rabbit Isotype: lgG **Clonality:** Polyclonal Immunogen: Recombinant fusion protein containing a sequence corresponding to amino acids 1-170 of human CHKA (NP_001268.2). Formulation: Buffer: PBS with 0.02% sodium azide, 50% glycerol, pH7.3. **Concentration:** lot specific **Purification:** Affinity purification **Conjugation:** Unconjugated Storage: Store at -20°C. Avoid freeze / thaw cycles. Stability: Shelf life: one year from despatch. Predicted Protein Size: 50kDa/52kDa Gene Name: choline kinase alpha Database Link: Entrez Gene 1119 Human P35790 **Background:** The major pathway for the biosynthesis of phosphatidylcholine occurs via the CDP-choline pathway. The protein encoded by this gene is the initial enzyme in the sequence and may play a regulatory role. The encoded protein also catalyzes the phosphorylation of ethanolamine. Two transcript variants encoding different isoforms have been found for this gene. Synonyms: CHETK-alpha; CHK; CK; CKI
