# **Product datasheet for TA375955**

## Her2 (ERBB2) Rabbit Polyclonal Antibody

## **Product data:**

Product Type:	Primary Antibodies
Applications:	ELISA, WB
Recommended Dilution:	WB,1:500 - 1:1000 ELISA,Recommended starting concentration is 1 $\mu$ g/mL. Please optimize the concentration based on your specific assay requirements.
Reactivity:	Human
Modifications:	Phospho Y1221/1222
Host:	Rabbit
lsotype:	IgG
Clonality:	Polyclonal
Formulation:	Buffer: PBS with 0.02% sodium azide,50% glycerol,pH7.3.
Concentration:	lot specific
Purification:	Affinity purification
Conjugation:	Unconjugated
Storage:	Store at -20°C. Avoid freeze / thaw cycles.
Stability:	Shelf life: one year from despatch.
Predicted Protein Size:	138kDa
Gene Name:	erb-b2 receptor tyrosine kinase 2
Database Link:	<u>Entrez Gene 2064 Human</u> <u>P04626</u>

#### **GRIGENE** Her2 (ERBB2) Rabbit Polyclonal Antibody – TA375955

Background:This gene encodes a member of the epidermal growth factor (EGF) receptor family of<br/>receptor tyrosine kinases. This protein has no ligand binding domain of its own and therefore<br/>cannot bind growth factors. However, it does bind tightly to other ligand-bound EGF receptor<br/>family members to form a heterodimer, stabilizing ligand binding and enhancing kinase-<br/>mediated activation of downstream signalling pathways, such as those involving mitogen-<br/>activated protein kinase and phosphatidylinositol-3 kinase. Allelic variations at amino acid<br/>positions 654 and 655 of isoform a (positions 624 and 625 of isoform b) have been reported,<br/>with the most common allele, Ile654/Ile655, shown here. Amplification and/or overexpression<br/>of this gene has been reported in numerous cancers, including breast and ovarian tumors.<br/>Alternative splicing results in several additional transcript variants, some encoding different<br/>isoforms and others that have not been fully characterized.

Synonyms: C-erbB-2; CD340; erbB-2; HER-2; HER-2/neu; HER2; herstatin; NEU; NGL; p185erbB2; TKR1
