# Product datasheet for TA376174S

## FBXW5 Rabbit Polyclonal Antibody

## **Product data:**

Product Type:	Primary Antibodies
Applications:	ELISA, WB
Recommended Dilution:	WB,1:200 - 1:1000 ELISA,Recommended starting concentration is 1 $\mu$ g/mL. Please optimize the concentration based on your specific assay requirements.
Reactivity:	Human
Modifications:	Unmodified
Host:	Rabbit
lsotype:	IgG
Clonality:	Polyclonal
Formulation:	Buffer: PBS with 0.02% sodium azide,50% glycerol,pH7.3.
Concentration:	lot specific
Purification:	Affinity purification
Conjugation:	Unconjugated
Storage:	Store at -20°C. Avoid freeze / thaw cycles.
Stability:	Shelf life: one year from despatch.
Predicted Protein Size:	64kDa
Gene Name:	F-box and WD repeat domain containing 5
Database Link:	<u>Entrez Gene 54461 Human</u> <u>Q969U6</u>

This product is to be used for laboratory only. Not for diagnostic or therapeutic use. ©2025 OriGene Technologies, Inc., 9620 Medical Center Drive, Ste 200, Rockville, MD 20850, US

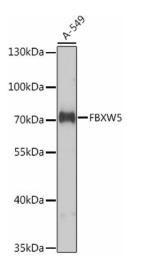

#### **GRIGENE** FBXW5 Rabbit Polyclonal Antibody – TA376174S

Background:This gene encodes a member of the F-box protein family, members of which are<br/>characterized by an approximately 40 amino acid motif, the F-box. The F-box proteins<br/>constitute one of the four subunits of ubiquitin protein ligase complex called SCFs (SKP1-<br/>cullin-F-box), which function in phosphorylation-dependent ubiquitination. The F-box<br/>proteins are divided into three classes: Fbws containing WD-40 domains, Fbls containing<br/>leucine-rich repeats, and Fbxs containing either different protein-protein interaction modules<br/>or no recognizable motifs. The protein encoded by this gene contains WD-40 domains, in<br/>addition to an F-box motif, so it belongs to the Fbw class. Alternatively spliced transcript<br/>variants encoding distinct isoforms have been identified for this gene, however, they were<br/>found to be nonsense-mediated mRNA decay (NMD) candidates, hence not represented.

Synonyms:

DKFZp434B205; Fbw5; MGC20962; RP11-229P13.10
