GLE1 Rabbit Polyclonal Antibody

Product data:

Product Type: Primary Antibodies

Applications: ELISA, WB

Recommended Dilution: WB,1:500 - 1:2000

ELISA,Recommended starting concentration is 1 μg/mL. Please optimize the concentration

based on your specific assay requirements.

Reactivity: Human

Modifications: Unmodified

Host: Rabbit

Isotype: IgG

Clonality: Polyclonal

Formulation: Buffer: PBS with 0.02% sodium azide,50% glycerol,pH7.3.

Concentration: lot specific

Purification: Affinity purification

Conjugation: Unconjugated

Storage: Store at -20°C. Avoid freeze / thaw cycles.

Stability: Shelf life: one year from despatch.

Predicted Protein Size: 80kDa

Gene Name: GLE1, RNA export mediator

Database Link: Entrez Gene 2733 Human

Q53GS7

Background: This gene encodes a predicted 75-kDa polypeptide with high sequence and structure

homology to yeast Gle1p, which is nuclear protein with a leucine-rich nuclear export

sequence essential for poly(A)+RNA export. Inhibition of human GLE1L by microinjection of

antibodies against GLE1L in HeLa cells resulted in inhibition of poly(A)+RNA export.

Immunoflourescence studies show that GLE1L is localized at the nuclear pore complexes. This localization suggests that GLE1L may act at a terminal step in the export of mature RNA messages to the cytoplasm. Two alternatively spliced transcript variants encoding different

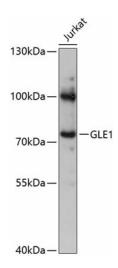

isoforms have been found for this gene.

Synonyms: GLE1L; hGLE1; LCCS; LCCS1
