

Product datasheet for TA377424

WB

Primary Antibodies

Human, Mouse

Unmodified

Polyclonal

lot specific

Affinity purification

Unconjugated

14kDa/18kDa

interleukin 15

P40933

Recombinant protein of human IL15.

Store at -20°C. Avoid freeze / thaw cycles.

Shelf life: one year from despatch.

Entrez Gene 3600 Human

Buffer: PBS with 0.02% sodium azide, 50% glycerol, pH7.3.

Rabbit

lgG

IL15 Rabbit Polyclonal Antibody

Recommended Dilution: WB,1:500 - 1:2000

GRIGENE IL15 Rabbit Polyclonal Antibody – TA377424

Background:The protein encoded by this gene is a cytokine that regulates T and natural killer cell
activation and proliferation. This cytokine and interleukine 2 share many biological activities.
They are found to bind common hematopoietin receptor subunits, and may compete for the
same receptor, and thus negatively regulate each other's activity. The number of CD8+
memory cells is shown to be controlled by a balance between this cytokine and IL2. This
cytokine induces the activation of JAK kinases, as well as the phosphorylation and activation
of transcription activators STAT3, STAT5, and STAT6. Studies of the mouse counterpart
suggested that this cytokine may increase the expression of apoptosis inhibitor BCL2L1/BCL-
x(L), possibly through the transcription activation activity of STAT6, and thus prevent
apoptosis. Alternatively spliced transcript variants of this gene have been reported.

Synonyms:

IL-15; MGC9721

Product images:

Western blot analysis of extracts of various cell lines, using IL15 antibody (TA377424) at 1:1000 dilution. | Secondary antibody: HRP Goat Anti-Rabbit IgG (H+L) at 1:10000 dilution. | Lysates/proteins: 25ug per lane. | Blocking buffer: 3% nonfat dry milk in TBST. | Detection: ECL Basic Kit . | Exposure time: 180s.
