Product Type:	Primary Antibodies
Applications:	ELISA, IHC, WB
Recommended Dilution:	WB,1:500 - 1:2000 IHC-P,1:50 - 1:200 ELISA,Recommended starting concentration is 1 µg/mL. Please optimize the concentration based on your specific assay requirements.
Reactivity:	Human, Mouse, Rat
Modifications:	Unmodified
Host:	Rabbit
lsotype:	IgG
Clonality:	Polyclonal
Formulation:	PBS with 0.05% proclin300,50% glycerol,pH7.3.
Concentration:	lot specific
Purification:	Affinity purification
Conjugation:	Unconjugated
Storage:	Store at -20°C. Avoid freeze / thaw cycles.
Stability:	Shelf life: one year from despatch.
Predicted Protein Size:	90kDa
Gene Name:	interleukin 4 receptor
Database Link:	<u>Entrez Gene 3566 Human</u> <u>P24394</u>

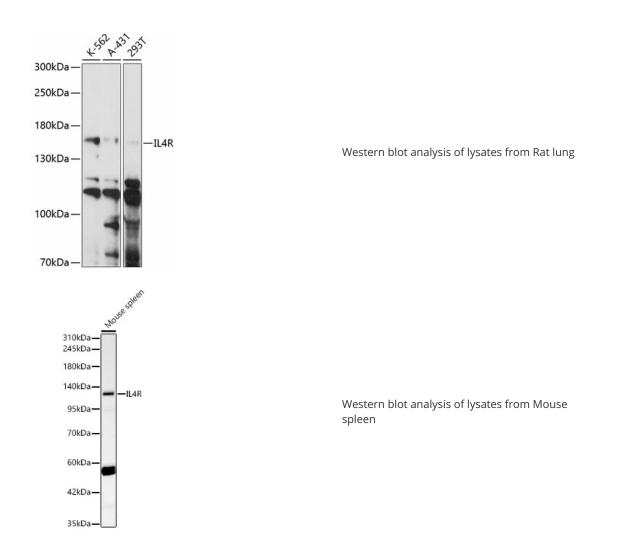

This product is to be used for laboratory only. Not for diagnostic or therapeutic use. ©2025 OriGene Technologies, Inc., 9620 Medical Center Drive, Ste 200, Rockville, MD 20850, US

#### **GRIGENE** IL4R Rabbit Polyclonal Antibody – TA377476S

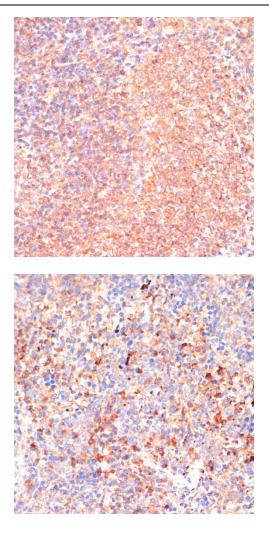

Background:This gene encodes the alpha chain of the interleukin-4 receptor, a type I transmembrane<br/>protein that can bind interleukin 4 and interleukin 13 to regulate IgE production. The encoded<br/>protein also can bind interleukin 4 to promote differentiation of Th2 cells. A soluble form of<br/>the encoded protein can be produced by proteolysis of the membrane-bound protein, and<br/>this soluble form can inhibit IL4-mediated cell proliferation and IL5 upregulation by T-cells.<br/>Allelic variations in this gene have been associated with atopy, a condition that can manifest<br/>itself as allergic rhinitis, sinusitus, asthma, or eczema. Polymorphisms in this gene are also<br/>associated with resistance to human immunodeficiency virus type-1 infection. Alternate<br/>splicing results in multiple transcript variants.

Synonyms: CD124; IL-4R-alpha; IL4RA; OTTHUMP00000122506
