# Product datasheet for TA379493

## **ORC1 Rabbit Polyclonal Antibody**

## **Product data:**

Product Type:	Primary Antibodies
Applications:	ELISA, WB
Recommended Dilution:	WB,1:500 - 1:2000 ELISA,Recommended starting concentration is 1 $\mu$ g/mL. Please optimize the concentration based on your specific assay requirements.
Reactivity:	Human
Modifications:	Unmodified
Host:	Rabbit
lsotype:	IgG
Clonality:	Polyclonal
Formulation:	Buffer: PBS with 0.01% thimerosal,50% glycerol,pH7.3.
Concentration:	lot specific
Purification:	Affinity purification
Conjugation:	Unconjugated
Storage:	Store at -20°C. Avoid freeze / thaw cycles.
Stability:	Shelf life: one year from despatch.
Predicted Protein Size:	97kDa
Gene Name:	origin recognition complex subunit 1
Database Link:	<u>Entrez Gene 4998 Human</u> <u>Q13415</u>

This product is to be used for laboratory only. Not for diagnostic or therapeutic use. ©2025 OriGene Technologies, Inc., 9620 Medical Center Drive, Ste 200, Rockville, MD 20850, US

#### **GRIGENE** ORC1 Rabbit Polyclonal Antibody – TA379493

Background:The origin recognition complex (ORC) is a highly conserved six subunits protein complex<br/>essential for the initiation of the DNA replication in eukaryotic cells. Studies in yeast<br/>demonstrated that ORC binds specifically to origins of replication and serves as a platform<br/>for the assembly of additional initiation factors such as Cdc6 and Mcm proteins. The protein<br/>encoded by this gene is the largest subunit of the ORC complex. While other ORC subunits are<br/>stable throughout the cell cycle, the levels of this protein vary during the cell cycle, which has<br/>been shown to be controlled by ubiquitin-mediated proteolysis after initiation of DNA<br/>replication. This protein is found to be selectively phosphorylated during mitosis. It is also<br/>reported to interact with MYST histone acetyltransferase 2 (MyST2/HBO1), a protein involved<br/>in control of transcription silencing. Alternatively spliced transcript variants encoding<br/>different isoforms have been found for this gene.

Synonyms:

AA545195; MmORC1; Orc11

### **Product images:**

Western blot analysis of various lysates using ORC1 Rabbit pAb (TA379493) at 1:1000 dilution. Secondary antibody: HRP-conjugated Goat anti-Rabbit IgG (H+L) (AS014) at 1:10000 dilution. Lysates/proteins: 25µg per lane. Blocking buffer: 3% nonfat dry milk in TBST. Detection: ECL Basic Kit (RM00020). Exposure time: 10s.
