Product Type:	Primary Antibodies
Applications:	WB
Recommended Dilution:	WB,1:500 - 1:2000
Reactivity:	Mouse
Modifications:	Unmodified
Host:	Rabbit
lsotype:	lgG
Clonality:	Polyclonal
Immunogen:	Recombinant fusion protein containing a sequence corresponding to amino acids 600-750 of human PTPRK (NP_001129120.1).
Formulation:	Buffer: PBS with 0.02% sodium azide,50% glycerol,pH7.3.
Concentration:	lot specific
Purification:	Affinity purification
Conjugation:	Unconjugated
Storage:	Store at -20°C. Avoid freeze / thaw cycles.
Stability:	Shelf life: one year from despatch.
Predicted Protein Size:	162kDa/163kDa/164kDa
Gene Name:	protein tyrosine phosphatase, receptor type K
Database Link:	<u>Q15262</u>

This product is to be used for laboratory only. Not for diagnostic or therapeutic use. ©2022 OriGene Technologies, Inc., 9620 Medical Center Drive, Ste 200, Rockville, MD 20850, US

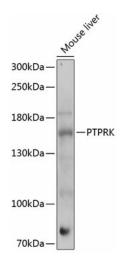

#### **GRIGENE** PTP kappa (PTPRK) Rabbit Polyclonal Antibody – TA380549

Background:The protein encoded by this gene is a member of the protein tyrosine phosphatase (PTP)<br/>family. PTPs are known to be signaling molecules that regulate a variety of cellular processes<br/>including cell growth, differentiation, mitotic cycle, and oncogenic transformation. This PTP<br/>possesses an extracellular region, a single transmembrane region, and two tandem catalytic<br/>domains, and thus represents a receptor-type PTP. The extracellular region contains a<br/>meprin-A5 antigen-PTP mu (MAM) domain, an Ig-like domain and four fibronectin type III-like<br/>repeats. This PTP was shown to mediate homophilic intercellular interaction, possibly through<br/>the interaction with beta- and gamma-catenin at adherens junctions. Expression of this gene<br/>was found to be stimulated by TGF-beta 1, which may be important for the inhibition of<br/>keratinocyte proliferation.

Synonyms:

DKFZp686C2268; DKFZp779N1045; PTPK; R-PTP-kappa

### **Product images:**

Western blot analysis of extracts of mouse liver, using PTPRK antibody (TA380549) at 1:1000 dilution. | Secondary antibody: HRP Goat Anti-Rabbit IgG (H+L) at 1:10000 dilution. | Lysates/proteins: 25ug per lane. | Blocking buffer: 3% nonfat dry milk in TBST. | Detection: ECL Enhanced Kit . | Exposure time: 60s.
