

## **Product datasheet for TA380608S**

## RAB12 Rabbit Polyclonal Antibody

## **Product data:**

Reactivity:

**Product Type:** Primary Antibodies

Applications: WE

Recommended Dilution: WB,1:500 - 1:2000

Modifications: Unmodified

Host: Rabbit Isotype: IgG

Clonality: Polyclonal

**Immunogen:** Recombinant fusion protein containing a sequence corresponding to amino acids 1-70 of

human RAB12 (NP\_001020471.2).

**Formulation:** Buffer: PBS with 0.02% sodium azide,50% glycerol,pH7.3.

**Concentration:** lot specific

**Purification:** Affinity purification

**Conjugation:** Unconjugated

Storage: Store at -20°C. Avoid freeze / thaw cycles.

Human, Mouse

**Stability:** Shelf life: one year from despatch.

**Predicted Protein Size:** 27kDa

**Gene Name:** RAB12, member RAS oncogene family

Database Link: Entrez Gene 201475 Human

Q6IQ22

**Background:** The small GTPases Rab are key regulators of intracellular membrane trafficking, from the

formation of transport vesicles to their fusion with membranes. Rabs cycle between an inactive GDP-bound form and an active GTP-bound form that is able to recruit to membranes different set of downstream effectors directly responsible for vesicle formation, movement, tethering and fusion. That Rab may play a role in protein transport from recycling endosomes to lysosomes regulating, for instance, the degradation of the transferrin receptor. Involved in

autophagy (By similarity.
