#### **GRIGENE** SCD5 Rabbit Polyclonal Antibody – TA381274

Background:Stearoyl-CoA desaturase (SCD; EC 1.14.99.5) is an integral membrane protein of the<br/>endoplasmic reticulum that catalyzes the formation of monounsaturated fatty acids from<br/>saturated fatty acids. SCD may be a key regulator of energy metabolism with a role in obesity<br/>and dislipidemia. Four SCD isoforms, Scd1 through Scd4, have been identified in mouse. In<br/>contrast, only 2 SCD isoforms, SCD1 (MIM 604031) and SCD5, have been identified in human.<br/>SCD1 shares about 85% amino acid identity with all 4 mouse SCD isoforms, as well as with rat<br/>Scd1 and Scd2. In contrast, SCD5 shares limited homology with the rodent SCDs and appears<br/>to be unique to primates (Wang et al., 2005 [PubMed 15907797]).[supplied by OMIM, Mar<br/>2008]
